## MEMORANDUM

**TO:** MCAEMS System Agencies  
**FROM:** Michael Crabtree  
Quality Assurance Coordinator  
**RE:** Approved CPAP Devices  
**DATE:** 8/19/2013

---

Although the McLean County Area EMS System does not specifically endorse any particular manufacturer, the following devices have been evaluated by the system and meet the requirements of the CPAP protocol:

- **Flow-Safe I / Flow-Safe II** by Mercury Medical. Must either have nebulizer tee option -OR- a separate in-line nebulizer kit must accompany the device.
- **O-Two Single Use “Open Circuit” CPAP System** by O-Two. Must be accompanied by an in-line nebulizer kit.

All devices must have the ability to adjust CPAP pressure as well as the ability to simultaneously deliver nebulized medication.

Agencies may utilize any device on this list for the purposes of the CPAP protocol. Any devices not on this list must be approved by the system prior to use. If you have a device that you would like evaluated by the system, please send relevant materials (including a demo, if available) to the system office. It will be evaluated and either placed on the approved list or rejected for use within the system.
