TO: EMS System Members

FROM: Gregory Scott, R.N., M.S., EMT-P, CHEC
Director

DATE: May 24, 2012

SUBJECT: EMS Educators

I am pleased to announce the addition of two part-time EMS Educators to the EMS System office. I'm sure most of you are familiar with both of these individuals since they have been teaching in a registry fashion for some time.

Mr. Frank Friend has been in EMS since 1993 in various capacities. In addition to holding his Paramedic license and various other EMS certifications, Frank holds an Associate of Applied Science degree in Fire Science.

Mr. Joel Gollnitz has been in EMS since 2003 in various capacities. In addition to holding his Paramedic license and various other EMS certifications, Joel is completing an Association of Applied Science degree in Fire Science.

Both Frank and Joel work full-time as Firefighter/Paramedics and bring that knowledge and experience with them to the classroom setting when conducting education for the McLean County Area EMS System. They both provide a level of comfort within the education setting that enhances the learning of students.

Please join me in welcoming both Frank and Joel to their new roles within the McLean County Area EMS System.
