Have you ever thought of using your medical training on a medical mission to a third world country?

Trudy & Paul Vogel, McLean County residents, are currently forming a team for the January 11-22, 2016 FOTCOH medical mission.

We need paramedics, EMTs and nurses to provide service in our triage, treatment and lab areas.

What is FOTCOH?
We are a 30 year old not-for-profit organization run primarily by volunteers. We send six medical mission teams to Haiti each year, reaching nearly 15,000 of the poorest of the poor annually.

Our volunteers say serving on a medical team can be a life-changing experience, one that has an impact on the way they live their lives each and every day upon their return! They will also tell you they can’t wait to go back.

Our clinic is along the southern shore of Haiti near the city of Jacmel. Inside the 6,000-square-foot building, the main floor consists of 11 rooms, including exam and surgical areas, plus a pharmacy. The second story offers a volunteer living quarters including kitchen, dining room, plus four open sleeping rooms and access to a deck overlooking the ocean. The top floor includes a community living area, with wi-fi available.

- Emergency Medical Technicians & nurses can receive continuing education contact hours.
- For more information go to our website FOTCOH.org
- If interested please contact Paul & Trudy at pwvogel2@msn.com or complete a Volunteer Application form found on the website and indicate you are interested in the January 2016 team.
