FROM: Joe Albanese, EMS Manager  
IS/IT Departments

RE: EMS Recorded Phone Line

DATE: May 21, 2010

We have added a direct dial phone number to the EMS recorded phone line located in our Emergency Department. The phone number is **217-937-5265** and is now available for use.

This phone line also uses extension 2299 which will remain functional until June 14, 2010. After this date, **extension 2299 will be eliminated** and the recorded EMS line will only be accessible by dialing the 217-937-5265 number.

The recorded EMS number should be used when there is a request for medical direction by McLean County Area EMS System agencies or for inbound ambulance reports from other providers. As always, MERCI frequency 155.340mHz may also be utilized.
